

English

As **readers** and **writers** we will be delving into the famous book written by Roald Dahl: 'The Witches'. We shall be learning to write character profiles as well as writing our own biography about The Grand High Witch. Finally, we will be writing our own recipe for Formula Mouse Maker 66. Through our learning, we shall also be focusing on capital letters, bossy verbs and knowing where to put a full stop to end a sentence.

Autumn 2

Theme

As **artists** we will be looking at how to use shape in drawing and creating tone through shading. We will also learn to create detailed pictures through observational drawing and explore composition and scale.

As **designers** we will be researching where food comes from and whether it is seasonal or not. We shall also be using our cutting and dicing skills to make a vegetarian samosa.

Maths

As **mathematicians**, we will be developing our fluency with addition and subtraction. We will then move onto multiplication and division, using arrays and looking at patterns between the times tables to help us learn them.

Year 3

inspireenjoyachieve

Science

As **scientists**, we will be developing our knowledge of living things and their habitats. We shall be looking at where animals live, what they need to survive and how adaptive they are to their environment.

Other subjects

As **philosophers**, in RE we will be learning about Buddhism, Islam and Christianity. We will be focusing on the core beliefs of each religion and looking at their places of worship and origin.

As **musicians**, we will focusing our music on two songs that were originally sung by boatmen. The two songs are a Bengali folk song and a Scottish folk song and the children will ultimately be writing their own school folk song by the end of the term.

As **athletes** we will be reviewing the key skills used in Dodgeball such as throwing, catching, dodging and jumping. We will also be working on our ball skills through a range of different games, focusing on accurate catching and throwing.

As **computer scientists**, we will be using Google docs and slides to learn the fundamental skills of media publishing and further developing our touch typing skills.
