

## English

As both **readers** and **writers**, we will be learning to orally retell stories using repeated refrains and creating our own stories using ones we have learnt as our inspiration. We will also be continuing to learn our sounds, being able to recognise, read and write them to form words.

# Spring 1

## Theme

As **historians**, we will be learning about the history of our local area. We will look at what it was like in the past before Grange Park was built.

As **designers**, we will be looking at designing from our own plans. This will be using a range of resources from the classroom construction to junk modelling.

## Maths

As **mathematicians**, we will be focusing on the composition of numbers from 2-5. We will explore how we can add two numbers to make a bigger number and use our tens frames and part-whole models to help us.

## Science

As **scientists**, we will be learning about seasonal change as we move from winter into spring. We will also learn about forces and explore the forces that are around us.

# Foundation Stage

inspireenjoyachieve

## Other subjects

As **philosophers**, in RE we will be considering festivals around the world and how these are celebrated.

As **musicians**, we will explore a range of ways in which to experience the beat, identify and sing notes that move in step and leap, compose our own lyrics, and play a range of percussion instruments.

As **athletes**, we will explore creating shapes, balances, and jumps. Additionally, we will begin to develop our rocking and rolling. We will work on our awareness of space and how to use it safely and perform basic skills on both floor and apparatus.

As **computer scientists**, we will begin to understand coding and programming. We will explore Beebots and how we can make them move through our instructions.
