

November 2025

Dear Parent / Guardian,

We are delighted to let you know that we have organised a trip to support our learning about space next half term. The trip will see the children visit the **National Space Centre, LE4 5NS**. Whilst on the trip, the children will have the chance to explore the six interactive galleries, the UK's largest planetarium, and the iconic 42m high Rocket Tower,

The trip will take place on **Monday 12th January 2026**. The coach will depart from school at 8:45 am and will leave the National Space Centre at 2:00 pm, therefore we expect to be back at school for **3:15 pm**. We ask that the children **arrive at school at 8:30 am**, for a prompt departure.

If you would like your child to attend, we ask you to provide a voluntary contribution of **£23.00** to cover the cost of travel and for the cost of our entrance and a tour of the night sky. See the school website for more information regarding voluntary contributions.

The experience will see the children spend some of the day outdoors, come rain or shine! The children will need to be dressed in suitable outdoor clothing for the trip. Therefore, a waterproof coat, suitable trainers/walking shoes and warm clothing are advisable. Children will need to be dressed in **school uniform** for the trip. Please keep an eye on the weather forecast a few days before the trip date for further guidance.

Children will need to bring a packed lunch in a disposable bag. We will have lunch together in a designated space at the National Space Centre. If your child regularly has a hot school meal, please remember not to order one for **Monday 12th January 2026**.

Please make sure that the consent form is returned to school (via School Ping) as soon as possible so that we can secure the trip.

We are already looking forward to starting our new topic on learning and finding out more about space!

Yours sincerely,

Miss Brahimaj & Mrs Nash
